SUMMARY

Full Stack Developer and MERN Specialist with a focus on building high-performance web applications. Experienced in creating scalable solutions using React, Node.js, and AI integrations. Proven track record of delivering production-ready projects, from financial dashboards to AI-powered analytical suites.

EDUCATION

University of Central Punjab

Bachelor of Science in Software Engineering

Punjab Group of Colleges

F.Sc Pre-Engineering

Lahore, Pakistan

Oct 2022 – Present (7th Semester)

Lahore, Pakistan

Sept 2019 – May 2021

EXPERIENCE

Software Development Intern

Nov 2025 – Dec 2025

DevelopersHub Corporation

Remote

- Developed a full-stack **Task Management System** using the **MERN stack** to optimize productivity and task tracking within the team.
- Engineered RESTful APIs for CRUD operations and integrated **MongoDB** for secure, persistent data storage.
- Utilized **Git** for version control and collaborated in an agile environment to deliver production-ready code.
- Awarded Certificate of Achievement for outstanding performance and delivering key technical deliverables.

PROJECTS

Multi-Service AI Suite | *Python, Flask, Docker, OpenAI Whisper*

Jan 2026

- Architected an AI dashboard for real-time audio transcription and sentiment analysis using Whisper and NLP.
- Implemented clustering (K-Means/DBSCAN) and Apriori algorithms for pattern extraction from datasets.
- Containerized the app using **Docker** for high-availability deployment on Hugging Face Spaces.

Meezan Bank Interface Clone | *React.js, Tailwind CSS, Framer Motion, Vercel*

June 2025

- Engineered a high-fidelity, responsive banking dashboard with a focus on Shariah-compliant UI/UX principles and interactive financial modules.
- Architected complex frontend state logic for 7+ banking features including Secure Transfers, Zakat Calculator, and Bill Payments using React hooks.
- Implemented dynamic light/dark mode, smooth tab-based navigation, and interactive data filtering for transaction history.
- **Live Demo**

Grocery Product List | *React, Firebase, Context API*

Aug 2025

- Designed a real-time inventory management tool with Firebase for instant cross-device data synchronization.
- Optimized state management using Context API for smooth CRUD operations on inventory items.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C++, C#, HTML/CSS

Databases: MongoDB, MySQL

Frameworks: React, Node.js, Express.js, Flask, React Native, Expo

Developer Tools: Git, Docker, VS Code, Visual Studio, Eclipse, Hugging Face

Libraries: Scikit-Learn, Pandas, NumPy, Transformers, PyTorch, Matplotlib
